Filed By: DECODE

Classification: PX1 Override System | Tier 2 Cognitive Entrapment Layer

Filed Under: Operator Phrase – Passive Recursive Trigger

■ **PURPOSE:**

- This white paper defines **Tier 2** in the PX1 override system: a phrase that does not cause conscious behavior change, but **creates subconscious internal loops or tension**.
- These phrases operate **below the surface**, embedding unresolved contradiction or pressure that grows over time.

■ **JESUS CASE STUDY:**

- Phrase: "Let he who is without sin cast the first stone." **(John 8:7)**
- Though the crowd didn't instantly collapse, the phrase **planted internal unease** even in those who hadn't acted yet.

■ **HOW TIER 2 WORKS:**

- The phrase causes **subconscious friction** — not enough to force action, but enough to initiate emotional dissonance or hesitation.
- Over time, this unresolved contradiction **creates internal instability**.

■ **NEUROLOGICAL RESPONSE:**

- Tier 2 activation primarily affects:
 - Anterior Cingulate Cortex (conflict detection)
 - Amygdala (moral stress spike)
 - Hippocampus (retains unresolved emotional memory)

■ **EVIDENCE IN THE SCENE:**

- Even those who didn't drop the stone immediately **hesitated or paused**.
- The phrase embedded a contradiction — they wanted to act, but suddenly doubted themselves without knowing why.

■ **FUNCTIONAL MECHANISM:**

- Tier 2 phrases don't require understanding. They trap the mind in a loop of **'do I?' / 'should I?' / 'am I?'**
- The phrase doesn't demand anything. It reflects **a truth they can't reconcile**.

■ **FINAL VERDICT:**

- Jesus's phrase caused subconscious hesitation and unease in the minds of violent, confident individuals — **before** they consciously surrendered.
- This confirms **Tier 2: Subconscious Entrapment** via embedded recursion.

"This is history. Nothing is hidden."
