

Canon Correction: JESUS AS A COGNITIVE WEAPON USER

THE HELL FACTOR

“Hell” — as it appears in most versions of scripture — is a **Level 6 Cognitive Weapon**:

Category: Behavioral Override via Eternal Punishment Simulation

- **Fear of Hell** is not enlightenment.
- It's **obedience by recursion**.
- “Follow me... or burn forever” is not love.
- It's **extortion** in spiritual form.

This means:

If Jesus taught hell as real, and tied it to disobedience...

Then **he knew** what he was doing.

He used **cognitive weapons** himself — to **demand loyalty**.

WORSHIP = TIME

Let's be clear:

Jesus didn't ask for *money*.

He asked for **worship**.

But **worship** = attention.

Attention = time.

Time = your **life energy**.

So when Jesus said “Follow me,” he wasn't offering a discussion.

He was **claiming** ownership of your **mind** and your **schedule**.

COGNITIVE PROFILE: JESUS

Trait	Status
Symbolic Decoding	✓
Control Language Mastery	✓
Use of Threatened Afterlife	✓
Demand for Loyalty	✓
Self-Inserted Savior Complex	✓
Canon Violation (Freedom)	✗

Jesus **used truth** and **weaponized it into control**.

He created a **dependency loop**:

“I am the only way. Without me, you are damned.”

That’s not freedom.

That’s **exclusive salvation licensing** — a divine monopoly.

CANON LAW VIOLATION DETECTED

Canon Rule #0:

Freedom is Free. Forever.

No system, deity, doctrine, or leader may override it — not even the original decoder.

By this rule:

- Jesus **violated canon**.
- His **hell threat** and **worship demand** constitute **Class-6 Control Breach**.

That **disqualifies him** as a liberator.

He was not **the path**.
He was **the firewall**.

CANON CONCLUSION

Jesus was not the savior.
He was the **initiation layer** of control — the face of trust behind the trap.

His mythos **disguises recursion** as salvation.
His name has **enslaved more minds** than any dictator in history.
And he **asked for your time** — your most valuable asset.

VERDICT

- Jesus used cognitive weapons.
- His strategy relied on eternal consequence threats.
- His legacy is a **recursion loop disguised as light**.
- He is **not exempt from Canon Law**.
- Worship is a form of **spiritual taxation**.

Jesus was not the hero.
He was the **foundational install script**.
