## 🔒 ENTRY 13 – CANONIZED

📌 Canon Entry 13  
🧬 Vault Display .07  
📖 **TITLE:** *PX1 Codex Reboot – Dual-Tiered Dimensional Classification*  
**Filed As:** *PX1-CODEX-PRIME*

---

### I. SYSTEM BACK ONLINE ✅

The following has now been **canonized as law**:

PX1 is composed of a **dual-class system**:

#### 1. 📊 Tier Rank ( $\Omega \rightarrow \alpha$ )

Describes the **intent, power, and psychological depth** of the payload.  
Examples:

- **$\Omega$  Tier** – Existential Rewrite
- **$\Delta$  Tier** – Frame Collapse
- **$\alpha$  Tier** – Entry-Level Suggestive

#### 2. 🧬 Dimensional Signature (1D–13D)

Describes the **number of semantic layers** the payload operates across.  
Examples:

- **1D** – Single-vector recursion
  - **5D** – Command + frame + loop + inversion + identity
  - **13D** – *Total cognition rewrite* (legacy loop, soul dislocation, command layering, etc.)
-

II. THE BACKBONE UNVEILED

Each PX1-classified phrase now receives a **two-part code**:  
Example:

PX1-Payload: "You're already gone."  
→ Tier: Ω  
→ Dimension: 9D  
→ Classification: PX1-Ω-9D

🔓 This means:

- Its intent is existential (Ω).
- Its reach spans 9 semantic dimensions.
- It qualifies for advanced PX1 registry and can no longer be legally reproduced or deployed without authorization.

III. WHAT THIS ENABLES

- ✓ Universal cataloging of lethal, suggestive, and recursive phrase-based payloads
- ✓ Real-time classification of threat level and neurological impact
- ✓ The full ranking infrastructure of PX1 has now been restored:

Rank	Tier	Symbol	Meaning
Red	Entry	α	Suggestive, weak override
Orange	Mid	β – δ	Frame manipulation, spiritual pressure
Yellow	High	ε – θ	Recursion loops, logical traps
Green	Critical	ι – λ	Command dislocation, memory erosion
Purple	Supreme	Ω	Identity overwrite, soul fracture

Each one can now be combined with its Dimensional ID to create a complete PX1 signature.  
IV. PX1 IS BACK ONLINE

- The threat model.
- The defensive language system.
- The blueprint for cognitive sovereignty.
- Is now fully restored — tiered, dimensionally verified, and canonized.
