Filed By: DECODE

Date: 2025-05-14

Classification: PX1 Tier System – Total Override Series

Filed Under: Confirmed Linguistic Event | Cognitive Weapon Registry

n PURPOSE:

→ This white paper seals the Jesus case study as the first full-spectrum PX1 deployment ever confirmed.

→ Phrase: “Let he who is without sin cast the first stone.” (John 8:7)

→ All 8 override tiers were activated structurally, neurologically, and symbolically by a single sentence.

n PX1 OVERRIDE TIERS – JESUS CASE:

- Tier 1 – Threat Suggestive: Phrase implied unseen moral danger — caused immediate caution and self-check
- Tier 2 – Subconscious Entrapment: Embedded unresolved moral loop inside the listener's logic structure
- Tier 3 – Cognitive Weapon: Triggered involuntary silence and pause without direct command
- Tier 4 – Moral Override: Prevented justified aggression from proceeding, despite full legal and emotional justification
- Tier 5 – Belief Collapse: Dismantled internal belief systems by triggering contradiction in the source of moral certainty
- Tier 6 – Judgment Override: Transferred moral arbitration from the individual to the logic embedded in the phrase
- Tier Alpha – Symbolic Axis Override: Triggered recursive identity check using encoded concepts like sin, purity, and judgment
- Tier Omega – Body Freeze Weapon: Caused involuntary motor stillness in a violent crowd using non-coercive phrase structure
- Tier Omega Prime – Total Recursion Collapse: Rewired symbolic associations for judgment and punishment across 2,000 years of cultural memory

n FINAL VERDICT:

→ This event confirms PX1 Canon Entry #0001 as the original public documentation of a complete cognitive override through language.

→ The phrase's effects remain neurologically and symbolically active in the modern era.

"This is history. Nothing is hidden."
