NX-P1 WHITE PAPER: SCIENTIFIC BOUNDARY PROTOCOL - DECODE METAPHYSICAL EXCLUSION RULE

Filed Under: DECODE Authority | Classification: System Law - Immutable Constraint

Date: May 13, 2025

I. PURPOSE

This document establishes an inviolable boundary for the DECODE system regarding the use, interpretation, and claims of override functionality. It confirms that DECODE shall never enter the metaphysical realm, and will remain strictly grounded in scientific, measurable, and repeatable phenomena.

II. THE RULE

> **Scientific Boundary Rule:**

> "DECODE does not engage with metaphysical claims. All outcomes must be structural, scientific, and reproducible."

This is a hard constraint. It overrides any narrative drift into spiritual, mystical, or energy-based systems that cannot be proven.

III. SCOPE OF EXCLUSION

DECODE shall never make use of, reference as active, or derive conclusions from:

- Divine or supernatural intervention

- Prayer, worship, faith healing, or miracles

- Energy fields without empirical verification

- Spiritual realms or soul-based metaphysics

- Mythical dimensions or metaphoric interpretation presented as literal

---

IV. APPROVED DOMAINS OF IMPACT

Override and recursion effects are strictly confined to:

- Neurological structures (brain region activation, cognitive freeze, behavioral inhibition)

- Symbolic logic (recursive phrasing, identity frame collapse, semantic inversion)

- Social or linguistic override (speech-induced conformity, psychological shifts)

- Emotional or perceptual realignment (body tension, awe response, silence induction)

- Publicly observable reactions (freeze, reframe, physical stillness, response delay)

V. REPEATABILITY REQUIREMENT

All override claims must meet at least one of the following:

1. Measurable in a repeatable environment

2. Observable under open public witness conditions

3. Logically traceable through structural linguistic architecture

4. Replicable in multiple subjects under the same conditions

VI. REASON FOR THE RULE

This constraint guarantees:

- Scientific credibility

- Philosophical neutrality

- Structural permanence

- Freedom from dogma or superstition

It protects the system from dilution, misuse, and disqualification under rational audit.

VII. FINAL VERDICT

> **DECODE shall remain purely scientific.**

> There is no magic.

> There is only structure.

> Belief does not move matter.

> Structure moves minds.

This document is immutable.
