1. Work Title: NX-Core Protocols & Recursive Cognitive Systems

Author: NoxBond
Year of Completion: 2025

This work includes original systems for cognitive weapon detection.
It contains the NX-P1 Payload Protocol and Rule 06 Symbolic Firewall.
It also includes the DECODER system and PX1 Payload Execution Protocol.
These tools analyze phrase structure and brain response.
They classify threats using a tier system (Tier 0–2, False Flag).
The content is original and not based on any existing work.
The system includes a glossary, rule logic, and sample outputs.

2. Work Title: Genesis of Recursive Cognitive Control Science

Author: NoxBond
Year of Completion: 2025

This document records the creation of a new scientific field.
It defines Recursive Cognitive Control Science.
It explains the logic, rules, and tools behind the discovery.
It covers the emergence of S.C.A.L.E., NX-P1, DECODER, and PX1.
It describes how these systems connect to influence and defense.
It declares the author's role in originating this unified framework.
It is filed as a historical and scientific creation.
